

Fiscal Year (FY) 2024 Appropriations Recommendations for Priority Programs

Forest Stewardship

\$22 million to the **Forest Stewardship** program will help state forestry agencies equip thousands of forest landowners with the information they need to sustainably manage their forests for timber and biomass production, wildlife habitat, recreation, and more.

State and Volunteer Fire Capacity

\$79 million to the **State Fire Assistance** program and \$22 million to the **Volunteer Fire Assistance** program will ensure state and local fire departments have the resources they need to manage wildland fire and conduct hazardous fuels treatments to reduce wildfire risk.

Urban and Community Forestry

\$42 million to the **Urban and Community Forestry** program will enable state forestry agencies to provide critical technical and financial assistance to communities and municipalities managing local forestry resources.

Landscape Scale Restoration

\$20 million to the **Landscape Scale Restoration** program to help states collaboratively address critical, landscape-scale forestry concerns identified in Forest Action Plans.

Forest Health

\$39.43 million to the **Forest Health Management Program on Cooperative Lands** will leverage state efforts to improve the long-term health and resilience of all forested landscapes.

Forest Inventory and Analysis

\$32.4 million to the **Forest Inventory and Analysis** program will ensure the most comprehensive inventory of the nation's trees and forests—and the threats they face—is conducted and available to decision-makers. NASF recommends Congress work with the USDA Forest Service to establish a BLI for FIA salaries and expenses.

Forest Legacy

\$128 million to the **Forest Legacy** program will provide critical federal assistance to states, private landowners, and conservation groups to protect working forests through permanent conservation easements and fee acquisitions.

Conserve. Protect. Enhance.

NOTES:

* FY21 enacted levels through NASF's FY24 recommended levels reflect the new USDA Forest Service budget structure. Salaries and expenses, as well as Forest Service Operations Account are separated from program dollars. Only program dollars are noted.

** NASF recommends Congress work with the USDA Forest Service to establish a BLI for FIA salaries and expenses.

*** Per the Great American Outdoors Act, the LWCF is permanently and fully funded. Forest Legacy funding is no longer part of the State and Private Forestry discretionary budget account.

NASF supports establishing a funding authorization for State Forest Action Plan Implementation in the 2023 Farm Bill (\$40M annually). This authorization would allow for more streamlined allocation of the \$200M in State and Private Forestry funding appropriated by the BIL/IIJA specifically for state Forest Action Plan implementation.
